Submitter Information

General Comment

In regards to EPA-HQ-OPP-2016-0385:

I request that the EPA, FDA, NIH and CDC to do a formal investigation into the widespread contamination and likely harm caused by glyphosate, test for the contamination of pesticides in all consumer products including vaccines, halt the mandate of vaccines. Additionally, I request that the EPA immediately change their policy to require long term full formulation safety testing with full disclosure labeling and revoke the license of glyphosate to prevent further contamination.

A concerned citizen,
Jael Young
